

Fisheries Science Jobs in Alaska

The Alaska Region of the U. S. Fish & Wildlife Service will be hiring numerous temporary/seasonal Biological Science Technicians for the 2004 field season to work on a variety of fisheries-related studies.

Appointments will extend from about three months to one year, and will be filled at the GS- 4-7 level (\$20,952-\$37,749 per year, plus a 25% cost of living allowance). Projects involve monitoring salmon runs using fish weirs and digital video equipment, conducting abundance estimates of resident fish species, documenting fish movement using radio telemetry, sampling water quality, and performing fish habitat inventories. Technicians will be stationed at various locations throughout the state, including remote areas in the Alaskan bush. Travel to field camps is primarily by small aircraft or boat. Please note that these positions are for the adventurous as harsh weather, an abundance of biting insects, and remote living conditions can be challenging. However, this rare opportunity to work with intact assemblages of native fish species, while surrounded by abundant wildlife and pristine wilderness, will more than compensate the tolerant individual.

THE APPLICATION PERIOD FOR BIOLOGICAL SCIENCE TECHNICIAN POSITIONS (SERIES-0404) OPENS ON OCTOBER 15, 2003. APPLICATIONS MUST BE RECEIVED ON OR BEFORE NOVEMBER 17, 2003. Applications arriving before November 1 will receive first consideration for early appointments. Refer to vacancy announcement number FWS7-03-60, posted online after the opening date at: usajobs.opm.gov/ for application requirements. A copy of the announcement can be requested from the personnel office at (907)786-3528. Failure to provide required information detailed in the vacancy announcement may disqualify you from the selection process. Applications sent by facsimile or by electronic mail will not be accepted. To express your interest in working for a specific Fish and Wildlife Field Office (FWO) or National Wildlife Refuge (NWR), please contact the representative listed below.

Fairbanks FWO	Kevin_VanHatten@fws.gov	907-456-0511
